FOLIO

The Future of Libraries is Open

Introducing a global community of libraries, vendors, and individual contributors across 50 countries building an open source platform for rethinking workflows and services from the ground up

Community Engagement	Dev platform preview Github	Frequent release of code	FOLIO 1.0 release
Announce Collaboration	App dev begins	Community dev teams	App Marketplace
Community Forums	SIGs form	Community Growth	Community Growth
	Foundation established		

Timeline

FOLIO | EBSCO

5 Key Facts about FOLIO

1. Software is free, only pay for services and paid apps

2. Design workflows for your library or consortia

3. Local, shared, or cloud hosting

4. Apps from vendors, libraries, and developers around the world

5. 2018 launch of free ILS and ERM apps with non-core apps to follow

FOLIO | EBSCO

hands-on

- Visit **FOLIO.org** to sign up and stay up to date.

- Letters of intent

- Special Interest Groups (SIGs)

- Slack channels

- Online forums and regional meetups

- Continuous code and UI reviews
